PROFESSIONAL SUMMARY

I am a highly motivated Full-Stack Developer with over **3 years of experience** building scalable and user-friendly web applications. Proficient in JavaScript, TypeScript, React, Node.js, and MongoDB, I have successfully contributed to multiple projects, including e-commerce platforms, internal CRM tools, and SaaS products. With a strong background in front-end and back-end development, I specialise in creating seamless user experiences and optimising performance across the stack.

Known for my attention to detail, problem-solving skills, and ability to work effectively in team environments, I thrive in fast-paced settings that require creative thinking and continuous learning.

PROFESSIONAL EXPERIENCE

WizInoa - Current
Designation : Software Engineer

HRMS (Human Resource Management System) application :

- I developed a Human Resource Management System (HRMS) aimed at streamlining HR operations, such as employee management, attendance tracking, payroll processing, and recruitment.

Tools and Technologies: For the front-end, I used React.js along with TypeScript to ensure a scalable and maintainable codebase. On the back-end, We built the API using Node.js and Express, with MongoDB as the database for storing employee records, payroll data, and attendance logs. The application was deployed on AWS, using S3 for file storage and CloudFront for fast delivery. We also integrated JWT for secure user authentication and role-based access control.

Navogo :

Description: Developed a static website for the company, showcasing products and services. Designed the user interface, optimized for fast loading times, and ensured responsive design across all devices.

Technologies Used: Reactjs, Tailwind css, framer motion
