A Report on Science Exhibition on 10.10.19 & 11.10.2019

In its initiative to promote participatory and hands-on learning in Science, our college organized Science Exhibition on the 10th & 11th of October, 2019 at our college campus. The activity aims at providing a common platform to students to give shape to their innovative ideas and learn from each other's experiences. The exhibition also provides a medium for popularizing Science and increasing awareness among stakeholders about the close relationship between Science, Technology and Society. The students exhibited static and working models which can be used for learning various scientific concepts. The objects was not only to inculcate a scientific attitude and research mindedness but also creating teaching aids. All the students are participated and showcased their talents on creativity and innovation. Students – Teachers from various schools had visited our science expo. 1500 students came from nearly thirty five (35) schools at Madurai.

From our department, using blood grouping kit we had checked nearly 200 blood grouping & Rh typing for the willing students with no cost. Students had made still models, working models, charts and posters to present their topics.

The deemed members of our college and our department faculties took the initiative of encouraging the students to put up such a wonderful and enlightening exhibition. The chief guest Mrs. Premalatha Panneerselvam, Senior Principal, Mahatma Group of Schools, Madurai appreciated the students.
