Department of Microbiology
Report – Industrial visit to Hatsun Agro Products

The department of Microbiology organized a one day industrial visit to the Hatsun Agro Products at Nagari, Madurai for the I year students of the Department on 24.09.2024 Tuesday. A total of 34 students were accompanied by three Staff members of the Department. The students assembled in the college campus by 08.30 am and boarded the college bus to Vadipatti. The spot was reached by 10.00 a.m.

General safety protocols to be followed inside the plant premises were given by Mr. Mani, HR Manager, Nagari Plant. The students were taken to Raw Milk Receiving Dock Unit, where they witnessed the whole process of Raw Milk collection. All the process from Collection, Chilling standardization, Pasteurization and till packaging was explained by Mr. Thanabalan, Plant In charge. Then the students were taken to milk processing unit, then to milk testing Laboratory. The Laboratory Head, explained about the test that are carried in their plant for both the Raw and for Processed Milk.

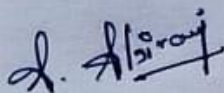

The Lab technician demonstrated the routine test done in Raw and in processed Milk such as Clot on Boiling, Acidity, and Determination of Fat & Homoefficiency by interpreting Results from the Morning Collected samples. The students also visited the packaging unit where they explained about the differences in various milk packets with respect to the percentage of Fat & SNF in each packets. Refreshment was given to the students by the plant In charge. The students finally boarded the bus and reached the College campus by 2.30 pm.
